

# The 6<sup>th</sup> Science of **Nutrition in Medicine** and Healthcare Conference

Saturday 30 April - Sunday 1 May 2016  
**Sofitel Sydney Wentworth, Sydney, Australia**

**First Early  
Bird ends  
31 Dec**

## Conference Themes

- Allergy & Autoimmunity
- Child & Adolescent Health
- Toxins: Nutrition & the Environment
- Scientific Abstracts

The 2016 Conference themes will address the connection between allergies, autoimmunity and underlying immune dysfunction, and the possible role of environmental factors such as nutrition and toxins. The developmental origins of health and disease will be further explored in the child and adolescent health stream.

The Science of Nutrition in Medicine Conference is a must for clinicians wanting to learn about emerging scientific research and how it may translate to improving patient outcomes in clinical practice.
